Professional Summary

AI Product Engineer with 4+ years of experience building scalable web applications, rapid prototypes, and interactive 3D experiences using **React.js, Golang, Unity3D, and AI-assisted development workflows**. Experienced in full-stack product ownership, reusable UI systems, performance optimization, and shipping MVPs quickly in startup environments.

Skills

AI Prototyping, Prompt Engineering, AI-assisted Fullstack Development, React.js, Next.js, JavaScript, Golang, Python, Java, REST APIs, PostgreSQL, Redis, Unity3D, Three.js, Git, DSA

Experience

Product Engineer II @ [kushmanda.ai](#)

Jul 2022 – Present

- Led frontend development for **3 production-grade platforms**, focusing on scalability, performance, and user experience
 - Built reusable and modular UI components in **React**, improving development speed and maintainability
 - Developed AR/VR experiences using **Unity3D + Three.js**, enabling interactive 3D user interfaces
 - Designed and integrated **REST APIs** and **Backend services** using **Golang**.
 - Built an intelligent **search system** using **vector embeddings, cosine similarity**, and **spell-correction algorithms** for improved search relevance and accuracy.
 - Developed a personalized **Recommendation Engine** for [WikiBedtimeStories](#) which recommends stories to kids based on their age, interests, and watch history.
 - Optimized application performance, reducing load times and improving responsiveness in complex UI flows
 - Collaborated closely with product and design teams to rapidly ship polished user experiences
-

Projects

[MyNetworthPro](#) – A Networth Projection tool which calculates your Networth based on given Income, Expense, Asset and Liability data. Developed in **React, ChartJS** and **Golang**.

[MetaStockPicker](#) – AR/VR tool to visualize the stocks market data in a 3d interactive environment. Developed in **Unity3d, Three.js, React** and **Golang**.

[WikiBedtimeStories](#) – A platform where anyone can write and read bedtime stories in text, audio and video format for kids. Developed in **React** and **Golang**.

Education

Bachelor of Computer Applications (BCA)

Jagran Lakecity University, Bhopal, India - (8.6 CGPA) (Gold Medalist)
Graduated: 2021
